

## Msc Thesis

For the master's degree by thesis each candidate shall submit a thesis, expressed in satisfactory literary form, based upon research in some topic connected with the candidate's special discipline. The thesis must demonstrate the candidate's capacity for original and independent work, and should include a critical evaluation of work which has previously been done in the candidate's field of research. The thesis should emphasize any new conclusions which may be drawn from the candidate's own research.

## PhD Thesis

Each candidate shall submit a thesis, written by the candidate, on the research carried out by the candidate on an approved topic. The thesis is expected to be a significant contribution to knowledge in its field and the candidate must indicate in what ways it is a contribution. The thesis must demonstrate mature scholarship and critical judgement on the part of the candidate and it must indicate an ability to express oneself in a satisfactory literary style. Approval of the thesis is taken to imply that it is judged to be sufficiently meritorious to warrant publication in reputable scholarly media in the field.

## Thesis Format

The Faculty of Graduate Studies accepts theses either in monograph or manuscript format. A thesis written in monograph format organizes chapters around a central problem, for instance, with an Introduction, a Literature Review, and chapters on Methodology, Results, and Conclusions. In the manuscript format, the chapters treat separate elements of the research program, typically incorporating several discrete articles suitable for journal publication. Theses written in manuscript format may include the following:

- Published articles
- Submitted articles
- Unpublished work in publication format

*Publication or acceptance for publication of research results before presentation of the thesis in no way supersedes the University's evaluation and judgement of the work during the thesis examination process.*

Theses written in manuscript format must satisfy the following:

- Inclusion of connecting materials that integrate across the different chapters/articles, including at minimum an overarching introduction and a concluding discussion chapter.
- A statement certifying that the student is the principal or sole author of any included manuscripts and had a major or sole role in the design of the research, and the preparation and writing of the manuscripts.
