

University of Guelph
Department of Mathematics and Statistics
College of Physical and Engineering Science
STAT*6761: Survival Analysis (0.5 credit)

Winter 2019 Course Outline

Instructor: Gerarda Darlington
MacNaughton Bldg (MACN) Room 514
Extension: 53292; email: gdarling@uoguelph.ca

Office hours: Mondays 3:00pm to 4:00pm in MACN 514

Lectures: Monday, Wednesday 1:00pm to 2:20pm in MCKN, Room 314

Course description: Kaplan-Meier estimation, life-table methods, the analysis of censored data, survival and hazard functions, a comparison of parametric and semi-parametric methods, longitudinal data analysis.

Course materials:

Textbook available online via lib.uoguelph.ca:

Survival Analysis: A Self-Learning Text, 3rd Edition by D.G. Kleinbaum and M. Klein

Course Objectives:

By the end of the course you should:

- Be able to identify scenarios requiring survival analysis techniques
- Understand and be able to address censoring
- Have facility with software for analyzing survival analysis data
- Interpret the results of survival analyses
- Prepare and deliver a scientific seminar
- Write a scientific paper

Marking Scheme and Due Dates:

| | | |
|--------------------------------------|-----|--|
| Assignments | 30% | 2 assignments (15% each) Due dates are: February 7 before 5:00pm; March 21 before 5:00pm |
| Literature Searches and Summaries | 20% | 4 literature searches and summaries (5% each) Due dates are: January 24 before 5:00pm; February 14 before 5:00pm; March 7 before 5:00pm; March 28 before 5:00pm |
| Seminar | 20% | Held in the last two weeks of classes |
| Final Project | 30% | Due Monday April 15 before 5:00pm (brief outline due on Monday March 18 before 5:00pm) |

NO LATE WORK WILL BE ACCEPTED.

NOTE: You should have **NO** conflicts concerning these dates and times. If you do it is your responsibility to resolve them as soon as possible.

Assignments:

Assignments will involve methods questions, data analyses, and results interpretations and the work that you submit must be your own work. Your submissions must be handed in by the indicated deadlines using the Dropbox option on the STAT*6761 Courselink site. *Turnitin* and Google will be used to check for potential plagiarism/copying. **Late submissions will not be accepted.**

Literature Searches and Summaries:

Topics for literature searches and summaries will be posted on Courselink one week in advance of deadlines. You are responsible for searching for published applied research articles that use methods based on the assigned topics. By the deadlines, you must write summaries of the applications papers **in your own words** with a length of no more than one double-spaced page in 12 point font with one inch margins. Your submissions must be handed in by the indicated deadlines using the Dropbox option on the STAT*6761 Courselink site. *Turnitin* and Google will be used to check for potential plagiarism/copying. **Late submissions will not be accepted.**

Seminar and Final Project:

The seminar/final project will be on a topic of your choice that is relevant to course topics. The goal of the project is to present details on a specific method not covered in course lectures. A brief outline of your topic must be submitted using the Dropbox option on the STAT*6761 Courselink site by the indicated deadline.

Seminars will be held during the final two weeks of the course. Each seminar must be no more than 20 minutes in length. You are expected to attend and provide feedback on all student seminars.

The final written project must be submitted using the Dropbox option on the STAT*6761 Courselink site by the indicated deadline. **Late submissions will not be accepted.** The main body of the final project must be no more than 8 pages with text that is double-spaced and in 12 point font with one inch margins. Tables and/or figures that are clearly labeled and clearly referred to in the text can be included. There is no limit to the number of pages of tables/figures. Any computer code used must be commented and included with your project as an appendix. Attaching computer output is not acceptable. References to all sources of information must be made throughout the text in the style used in the journal *Biometrics* or using the *apa* bibTEX style and a list of references must be added at the end of the final project text. Your final project **must be in your own words.** *Turnitin* and Google will be used to check for potential plagiarism/copying.

Seminars and final projects will be graded based on content, writing, difficulty/originality, and overall presentation.

Recording of Materials:

Presentations that are made in relation to course work – including lectures – cannot be recorded or copied without the permission of the presenter, whether the instructor, a classmate or guest lecturer. Material recorded with permission is restricted to use for that course unless further permission is granted.

E-mail Communication: As per university regulations, all students are required to check their University of Guelph GryphMail account <uoguelph.ca> regularly: e-mail is the official route of communication between the University and its students.

When You Cannot Meet a Course Requirement: When you find yourself unable to meet an in-course requirement because of illness or compassionate reasons please advise the course instructor (or designated person, such as a teaching assistant) in writing, with your name, id#, and e-mail contact. The regulations and procedures for [Academic Consideration](#) are detailed in the Graduate Calendar.

Drop Date: The last date to drop Winter 2019 courses, without academic penalty, is Friday March 8.

Copies of Assignments: Keep paper and/or other reliable back-up copies of all assignments: you may be asked to resubmit work at any time.

Accessibility: The University of Guelph committed to creating a barrier-free environment. Providing services for students is a shared responsibility among students, faculty and administrators. This relationship is based on respect of individual rights, the dignity of the individual and the University community's shared commitment to an open and supportive learning environment. Students requiring service or accommodation, whether due to an identified, ongoing disability or a short-term disability should contact Student Accessibility Services as soon as possible.

For more information, contact [Student Accessibility Services](#) at 519-824-4120 ext. 56208 or email accessibility@uoguelph.ca

Academic Misconduct: The University of Guelph is committed to upholding the highest standards of academic integrity and it is the responsibility of all members of the University community – faculty, staff, and students – to be aware of what constitutes academic misconduct and to do as much as possible to prevent academic offences from occurring. University of Guelph students have the responsibility of abiding by the University's policy on academic misconduct regardless of their location of study; faculty, staff and students have the responsibility of supporting an environment that discourages misconduct. Students need to remain aware that instructors have access to and the right to use electronic and other means of detection.

Please note: Whether or not a student intended to commit academic misconduct is not relevant for a finding of guilt. Hurried or careless submission of assignments does not excuse students from responsibility for verifying the academic integrity of their work before submitting it. Students

who are in any doubt as to whether an action on their part could be construed as an academic offence should consult with a faculty member or faculty advisor.

The [Academic Misconduct Policy](#) is detailed in the Graduate Calendar

Resources: The [Academic Calendars](#) are the sources of information about the University of Guelph's procedures, policies and regulations that apply to undergraduate, graduate and diploma programs.
